Transport projects

8 projects

Sustainable
transport

~ 13,5 m EUR ERDF

@SouthBaltic

SouthBaltic

www.southbaltic.eu

LOW CARBON LOGISTICS

Reducing greenhouse gas emissions, congestion and noise pollution in cities by using low carbon logistic solutions.

<http://lcl-project.eu/>

@SouthBaltic

SouthBaltic

www.southbaltic.eu

Transport projects

CoBium

Reducing car-traffic and parking pressure by integrating cargo bikes into urban mobility concepts

<http://energikontorsydost.se/en/cobium>

Parking Gets Smart

Developing & spreading innovative parking management solutions that make the most of digitalisation & advanced ICT.

Transport projects

User-adjusted and more sustainable public transport services for regional and cross-border travels.

<http://interconnect.one/>

Developing system solutions for the implementation and scale-up of electric vehicle systems.

CAR

@SouthBaltic

SouthBaltic

www.southbaltic.eu

Transport projects

Developing new regular shipping connections to and from small and medium sized ports in the South Baltic.

SB Transport loops

Developing an alternative transport route along the international waterway E60 in connection to other inland waterways – E30, E40 and E70

Incone60

Improving IT and infrastructural capacity of small ports in the South Baltic region to offer new services.

Cooperation capacity building

Call for proposals
1 Oct – 18 Dec 2018

@SouthBaltic

SouthBaltic

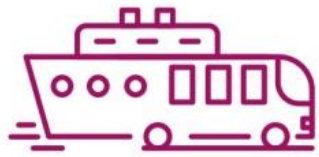

www.southbaltic.eu

Potential topics

Space for **1-2 projects**, possible topics:

2,15 EUR

Sustainable
transport

- Accessibility / high traffic congestion on natural areas: transport services to peninsulas, islands, maritime areas experiencing high flow of tourists
- Port community services, intelligent transport systems
- Coordination of competences between port authorities

@SouthBaltic

SouthBaltic
